Surakarta City, Central Java, Indonesia

Information Systems graduate from Telkom University with a GPA of 3.86/4.00 (Cum Laude) and experience in business process analysis, system requirements elicitation, Software Development Life Cycle (SDLC), and solution design. Skilled in stakeholder interviews, BPMN and UML modeling, functional requirements documentation, and UI prototyping using Figma. Experienced in identifying workflow inefficiencies and translating business needs into system specifications to support process improvement and system development.

EDUCATION

Telkom University Bandung **September 2022 – August 2026**

- Bachelor of Information Systems | GPA: 3.86/4.00 (*Cum Laude*) (Transcript)
- PANDI Scholarship Recipient 2024
- Publication International : *AI-Based Split Bill Adoption in Fintech: A Measurement Model Validation of Extended TAM Among Generation Z* — ICSCC 2026 (413 valid respondents).
- Relevant Coursework: Business Process Modeling, Information Systems Analysis and Design, Business Process Engineering, Capstone Design and Project, User Experience (UX) Design.

WORK EXPERIENCE

PT. Solo Murni (Kiky Creative Product) – Boyolali, Central Java **June 2025 – August 2025**

Business Development Intern

- Analyzed the PPIC Division's material purchase request workflow through stakeholder interviews, discussions, and document reviews to identify process gaps and manual inefficiencies.
- Translated business needs into system requirements documentation, including functional requirements, use case descriptions, use case diagrams, and activity diagrams for development team reference.
- Designed 20 Figma interface mockups across 4 key workflows covering material allocation, purchase requests, PPIC MC monitoring, and PPIC Manager review and approval.

SAG Laboratory Telkom University – Bandung, West Java **September 2024 – December 2024**

Operation Division - Business Process Modeling Practicum Assistant

- **Prepared Module 0 on Business Process Modeling** as a learning guide for **100+ Information Systems undergraduate students**.
- Facilitated coaching sessions guiding students to translate complex enterprise operational scenarios into standardized As-Is and To-Be process diagrams **using Visual Paradigm**
- Managed LMS operational workflows, assignment submission pipelines, and digital resource repositories to ensure seamless semester execution

ACADEMIC PROJECTS

Business Process Analysis and Modeling — PT Kiat Ananda Group **2024**

Business Process Modeling & Business Process Engineering Project Courses (portfolio)

- Modeled 4 business processes (Recruitment, Planning, Loading, and Delivery) based on employee interviews using BPMN and Visual Paradigm to document the existing process flows.
- Modeled business process workflows using Visual Paradigm and Draw.io to support process documentation and analysis.

Information System Analysis & Design – PT Kiat Ananda Group **2025**

Integration Course (portfolio)

- Executed enterprise stakeholder interviews to elicit functional parameters, data flows, and system constraints for a business system overhaul.
- Delivered a complete, professional UML design package utilizing Visual Paradigm including Use Case, Activity, Sequence, Class, Component, and Deployment diagrams.

Odoo CRM Implementation – PT Furniture Nusantara (Dummy Company) **2025**

Academic Project – ERP & Business Process Analysis (portfolio)

- Tailored and parameterized Odoo ERP CRM modules to replicate enterprise sales funnels, automated lead qualification rules, and follow-up sequences.

Internal Inventory Management System – Chicken William **2026**

Capstone Project – System Analysis & ERP (portfolio)

- Developed the end-to-end system design and relational database schema for a web-based inventory management platform, replacing error-prone manual bookkeeping with automated tracking.
- Integrated supply chain mathematical logic including Reorder Point (ROP), Economic Order Quantity (EOQ), and FIFO valuation algorithms directly into the system backend.

ORGANIZATIONAL EXPERIENCE

ERP Laboratory Telkom University – Bandung, West Java **March 2024 – January 2026**

Permanent Staff – Competition Division

- Coordinated end-to-end event logistics, registration pipelines, and curriculum scheduling for SAP SCM600 certification programs involving 50+ participants
- Prepared the *business case* modules and assessment rubric at the ERP Mini Contest event to evaluate the sharpness of participants' solution analysis.
- **Curated** ERP competition information for official Instagram content to support the dissemination of competition information to students.

UKM Band Telkom University – Bandung, West Java **April 2023 – April 2025**

Core Board Member – Treasurer

- Administered organizational cash flows, budget allocations, financial reporting, and commercial vendor negotiations for large-scale campus events.
- Collaborated across project divisions, including Event Management, to organize event flows and timelines, and Public Relations, to identify and approach potential media partners.

GENESIS HMSI Telkom University – Bandung, West Java **April 2024 – December 2024**

Division Staff – Public Relation Crew

- Coordinated communication with speakers and MCs and supported the smooth running of events.

SKILLS

Technical Skills

- **System & Business Analysis**: Requirements Analysis, Functional Requirements, Stakeholder Analysis, Business Process Analysis, System Documentation, SDLC
- **Modeling & Design**: BPMN, UML, Use Case Diagram, Activity Diagram, Sequence Diagram, Class Diagram, ERD, UI Prototyping
- **Programming & Web Technologies**: Python, PHP, HTML, CSS, JavaScript
- **Tools & Platforms**: Visual Paradigm, Bizagi Modeler, Figma, MySQL, GitHub, Jira, Microsoft Office, Odoo ERP, SAP SCM

Soft Skill: Logical Thinking, Analytical Thinking, Problem Solving, Attention to Detail, Effective Communication, Teamwork, Adaptability, Interpersonal Skills, Leadership

Languages: Indonesian (Native), English (Professional Working Proficiency)

TRAINING & CERTIFICATIONS

ABAP SAP Bootcamp – PT Sinergi Informatika Semen Indonesia (SISI) **June 2026 – August 2026**

- Learned ABAP fundamentals in SAP, report creation, database queries, program parameters, and an introduction to ABAP Objects and Class Builder.

SAP Certification: SCM300 (2025) (certificate) | SCM100 (2025) (certificate) | SCM500 (2024) (Certificate) | AC010 (2024) (certificate) | SAP01 (2022) (Certificate)
